

# Open Data Publication Plan

## Scottish Information Commissioner

### Explanatory notes

**Short term:** The datasets are as currently published. While all are updated regularly, they are not easy to use and combine with other data.

**Medium term:** Current datasets will be reviewed and brought up to Level of Openness 3 (3-star standard). The aim is to have them all published and accessible in CSV format

**Long-term:** The Scottish Information Commissioner will publish an Information Strategy with a view to creating open data by default and publishing more information routinely
