Executive summary

3. Section 31 of the Public Services Reform (Scotland) Act 2010 (PSRA) requires public bodies to publish information on certain expenditure each financial year. In preparing the annual statement on this expenditure for the Scottish Information Commissioner (the Commissioner), data is gathered from a range of sources, including a monthly monitor log of activity falling within the category of “public relations”, as listed in the PSRA.
4. The key document C7 Public Services Reform Act 2010 - definition of public relations” Internal guidance note’ provides guidance to the Commissioner’s staff on what activity should be classed as “public relations” and recorded in the monthly monitoring log.
5. The key document was reviewed in April 2023.
6. Following consideration of the relevant CR, an annual statement is prepared and published for each financial year.

Risk impact

7. The Commissioner's reputation and, also, public confidence in the Commissioner could be undermined if the Commissioner fails to meet statutory duties and does not demonstrate good practice and good governance.
